HISTORICAL ROUTE THROUGH VILAFRANCA DEL PENEDÈS

Vilafranca's strategic location as a route connecting Christian and Muslim lands led to intense growth in the second half of the 12th century.

Notable historical buildings from this period include the Palau Reial (Royal Palace), where King Pere III the Great passed away, and the Palau Baltà, where the Concordia de Vilafranca was allegedly signed in 1461, a key event in the 15th-century civil war.

The economic resurgence after the phylloxera disaster paved the way for modernism. Agricultural landowners and traders embraced modernist trends, resulting in buildings reflecting their economic status.

This historical route through Vilafranca del Penedès explores medieval houses, churches, and streets, revealing the main symbols of modernist Vilafranca.

VINSEUM MUSEUM OF WINE CULTURES OF CATALONIA

At VINSEUM, we discover the character of the Penedès region, which has centered its activity around viticulture for centuries.

The museum houses a permanent collection of objects related to wine production. Weekly activities include tastings, guided tours, family workshops, concerts, and film screenings.

CASA DE LA FESTA MAJOR (HOUSE OF THE MAIN FESTIVAL)

The Casa de la Festa Major provides an immersive experience of the sensations felt during the five days of a festival with origins dating back to the 17th century.

It exhibits a collection of festive imagery and bestiary, along with information about dances, casteller groups, key figures, and traditional events.

In 1991, it was declared a National Heritage Festival of Interest.
